Frontend Technologies: HTML5, CSS3, React, Bootstrap, Tailwind CSS, Redux

Backend Technologies: Node.js, Express.js, MongoDB, Mongoose, JWT, RESTful APIs

Tools and Technologies: Git, GitHub, Axios, Postman

Soft Skills: Go getter, Problem solving, Team work, Time management, Optimistic, Decision Making

WORK EXPERIENCE

MERN Stack Developer Intern, BridgeOn Solution

Dec 2024 - Present

- Developed and optimized MERN stack applications, enhancing performance and delivering seamless user experiences for a dynamic user base.
- Built responsive and reusable UI components using React and Redux, achieving 98%+ cross-browser compatibility.
- Designed and implemented RESTful API architecture using Express.js and Node.js, ensuring efficient and reliable communication between services.

PROJECTS

HOMEHEAVEN - Full stack E-commerce web application for furniture

Sep 2019 - Oct 2020

A full-featured furniture e-commerce platform enabling users to browse products, add items to a cart or wishlist, complete purchases via secure Stripe payments, and manage orders through an admin dashboard.

Key Achievements

- Developed a scalable MERN stack web app with a responsive, user-friendly UI using React and Tailwind CSS.
- Built product listing, filtering, and detail views with real-time cart and wishlist management via Redux.
- Integrated Stripe for secure online payments, handling checkout flow and transaction success/failure states.
- Created an admin panel to manage users, products, and orders, with dynamic status updates and controls.
- Implemented protected routes, authentication, and role-based access for users and admins.

Technologies: React.js, Node.js, Express.js, MongoDB, Redux, Tailwind CSS, Axios, Stripe

Key Features: Stripe Payments, Wishlist, Admin Dashboard, Role-Based Access

EDUCATION

Higher Secondary (Commerce Stream), MIC HSS Athanikkal

Jun 2021 - Mar 2023
